xpectorant
Coughs and Colds yield
otly to the healing and cura-
properties of Dr. Jayne's Ex-
rant. It loosens and promotes
xpectoration of irritating mat-
mitigates much pain and dis-
and checks inflammation.
, Bronchitis, and Throat
bles are at once relieved by
's Expectorant. It re-
constriction of the Bronchial
loosens phlegm, soothes and
the mucous membrane, arrests
verish tendency, and helps to
rd a gradual cure.
ption, Pleurisy, and Lung
ticas are generally controlled
moliorated by Dr. Jayne's Ex-
rant. It allays the irritation and
ng them of the irritating matter
hich they are clogged. It also
es inflammation and gives
fected parts a chance to heal.
ng Cough, Croup and Hoa
are efficaciously treated by Dr.
's Expectorant. It removes
ulty of breathing and oppres-
in the throat or lungs, promotes
jection of mucus and subdues
violence of these complaints at
utset. It is a Safe Family Cura-
of long-established reputation,
where promptly administered,
nabled many to escape serious
affections.

graduate of the Medical College of Pennsylvania, and
graduate of the Medical College of Pennsylvania, and

The Daily Oregonian.

THURSDAY MORNING DEC 9 1875

HERZEGOVINIAN WAR

In itself the Herzegovinian war is important only to those actually engaged in it There is nothing in the people who are mere half peasants and half robbers, to attract the notice and merit the esteem of the rest of the world They are not nearly so respectable intelligent or civilized as the Cuban insurgents who are themselves not the noblest of mankind There is nothing in the fact that they are striving to throw off an oppressive yoke for that is being yearly attempted in various parts of the world without attracting other notice than the merest allusion, in the fewest words It is not that the sent of the war is a country endeared to its inhabitants, and interesting to the world, by having been the field on which glorious events transpired, or the home of poets or artists, famous in history, for of all parts of Europe, this is the one whose history is the least splendid, and whose art is the most contemptible It is not even attractive to travelers, for no lover of grand or lovely scenery ever seeks or hopes to find it there

But yet it has been the cause for much anxious thought, and has furnished the subject of many a consultation among the statesmen of Europe

It is considered an evidence that the power of Turkey in Europe is growing very weak, and that the end of that power is possibly near at hand No one would regret this All would rejoice to see that part of Europe freed from the control of a nation whose people are distinguished only for those things which make men despicable, whose government has for years been the object of the ridicule and contempt of civilized nations, and whose chief ruler devotes himself solely to the gratification of his physical desires

But the downfall of the power of Turkey would be the signal for the outbreak of wars, which would vitally affect the interests and prosperity of the whole of Europe And should the results of the Herzegovinian war bring this to pass Russia and Austria would each desire to unite a portion of European Turkish territory to their dominions Each would be jealous of the other, and strive to prevent the acquisition by the other of any considerable portion of that territory

Prussia would be drawn into the strife, and France, smarting with wounds inflicted in the late war by Prussia would gladly seize the opportunity to avenge herself, and regain the lost provinces of Alsace and Lorraine Nor could England easily keep out of the contest. She could not afford to let Russia gain possession of the Black Sea, and thus be in a better situation for carrying out her evident designs against India For these reasons the otherwise miserable contest in Herzegovina becomes a matter of intense interest to European statesmen, and is watched by them with the closest scrutiny

To us it is a matter of less importance than to them but should the dreaded consequences ensue, even we would be deeply and seriously affected by them and it is, therefore, to be hoped that some means will be found for averting, for the present, at least, the storm which it seems must inevitably burst some day

PRINCE LEO

Mr Berg, the President of the Society in New York which has for its object the prevention of cruelty to animals, some weeks ago caused the arrest of a man named Leonard on a charge of excessive cruelty to a child about six years old, called 'Prince Leo' From the evidence at the trial, it appears that Leonard was training Leo to perform on the slack wire and trapeze Whenever the little fellow through fear or inability, failed to perform the required feat, Leonard would punish him severely, sometimes kicking him in the most inhuman manner Physicians, who examined the child, testified that the excessive exertion demanded of him would eventually, if continued, cause distortion of the spine, symptoms of which already were discernable, and that the practice of walking on the slack wire would cause permanent injury to the boy's feet. It was also proved that besides beating the child, Leonard was in the habit of further punishing him by confining him in a room without food The man claimed to be Leo's father but this was denied by the child and by others As it was uncertain whether Leonard was really the father of the boy, or not, it is difficult to see what can be done in the matter, unless the court should determine that the cruelty alleged was sufficient to justify taking the boy from his heartless parent. Leonard denies that he was in any manner cruel or severe with the child, and claimed that the boy was well treated and not overworked Prince Leo however seemed to be very much afraid of Leonard and begged to be taken away from him

Nothing has yet been heard of the missing steamer *Los Angeles*, which sailed from San Francisco on the 20th ult., for Victoria and the Sound ports The *Los Angeles* was an old vessel, formerly in the revenue service but which had been condemned and sold to Goodall Nelson & Perkins, the owners of the *Pacific*. The U S revenue cutter *Oliver Wolcott* has gone in search of the *Los Angeles* The following incomplete list of passengers on the *Los Angeles* is taken from the *Colonist* of Victoria

For Victoria—G. Donaldson, C Fisher and wife J S Deas A Short, Thos Scudden and wife H Smith Thos Oliver P Sherry L Burns Mrs N Geder W Lawrence, J Burgstrum S H ring J C Patterson Mrs A M Herring, and 50 in the steerage

For Seattle—I K Bonney and wife John O Heard G H Barber Thos Kincaid Mrs I Rutherford and 3 children S Tatter I Greenhut O Shingler J C King, and 20 in the steerage

For Tacoma—Vic Agner, G Walker A Osborne L Meeker W Beatman W Russ A Hardee I A Cancross and 10 in steerage

The Seattle *Daily Tribune* states that the Straits of Fuca is filled with wreckage but it is not likely that any of it was ever part of the *Los Angeles*

While there are grounds for serious apprehensions concerning the fate of the *Los Angeles* there is as yet no reason for losing hope that she may ultimately arrive safely in port. It is however quite time for the practice of endangering the lives of passengers by sending them to sea in old and unseaworthy ships to be put a stop to Both the inspectors who grant certificates to such ships and the owners who employ them should be held to a strict account for all disasters (Since writing the above, news has been received that the *Wolcott* has returned without having seen or heard anything of the missing steamer.)

The agents of the *Los Angeles* also despatches the *Fauntome* a British government steamer, in search of the overdue vessel The *Fauntome* has not yet returned but is hoped that when she does she will bring the welcome news of the safety of the vessel she went in search of

The Daily Oregonian.
THURSDAY MORNING, DEC. 9, 1875.

CITY.

THE RAILROAD FERRY BOAT.—During the high stage of water for the past week the railroad ferry boat has experienced considerable difficulty in making landings owing to the strong current. The current sets toward the western shore at the point where the ferry lands, and renders it difficult to bring the boat into the slip. Just below the landing a number of large piles have been driven and these braced by cross timbers at the top which long acted as an abutment to prevent the boat from swinging around by the force of the current, when the slip is reached. The continual hanging against the piles by the heavy craft has had the effect at length to nearly break the piles off at the point where they enter the ground, and detach the pieces of the cross timber. Since the abutment has been partially torn away the ferry boat has not been able to effect a landing at the regular time, which with safety and consequently is ready to touch at the lower end of the O R & N Co.'s wharf. No teams have been able to cross for several days and the boat piles to and fro to carry passengers only. Owing to the fact no freight will be received for the down side road until to-day. When the water recedes a little more, new piles will be driven below the pontoon and the damage repaired. Mails and express, which arrived by the morning trains, Tuesday and yesterday, were brought over on the Stark street ferry.

ESCAPE—FORWARDED.—Allusion was made last week to the escape of Johnny Williams, from the county jail, and of his subsequent arrest at Vancouver and detention there by the authorities. Being necessary to obtain a requisition from Gov Grover, which would have to be forwarded to Gov Ferry of Washington Territory for the approval of the latter, Sheriff Jeffery sent to Salem at once for the requisite document. In making the application for a requisition the sheriff omitted to inclose a statement of the case made out and signed by the district attorney and in issuing the necessary document Gov Grover failed to take down for the statement [illegible] forwarded by return mail. The [illegible] was received Tuesday and forwarded at once to Gov. Ferry. The necessary papers will probably be received to-day and Walker will be brought back to this city.

THE TUG *GEN CANBY*.—It will be remembered that some weeks ago the steam tug Gen Canby, while lying at the dock in Astoria, caught fire from the boiler and narrowly escaped being burned down to the water's edge. The fire was extinguished, but not until the interior of the [illegible] and the hull near the boiler were badly burned. Since the fire the *Gen Canby* has been busily employed in towing and no opportunity has existed to have the damage repaired. At present the tug lies moored at Bar [illegible]. Just below the railroad ferry slip, and a force of carpenters are employed in repairing her. A portion of the cabin roof will be torn away and new lumber substituted. The Canby will be prepared to report for active duty in a week.

"CITY OF PANAMA" COMING.—A private dispatch was received here from San Francisco to-day, by a prominent gentleman which stated that the Pacific Mail Steamship Company's large steamer, the *City of Panama*, would sail for Portland to-day with passengers for this port. The *City of Panama* has doubtless been chartered by the O S S Co to make one trip, owing to the long and unavoidable detention of the steamers *Oriflamme* and *Ajax* at Astoria. We have had no intimation from the agent, Mr Weidler, that such is the case but it is not improbable that the steamer mentioned has been chartered for one trip. Definite information will be learned to-day as to whether or will sail from San Francisco and the line of steamers.

AT THE LOWER DOCK.—The river has fallen so as to leave the lower story of Ladd & Co's dock again above the water. A few days the wharf was inundated. Quantities of sediment have been left by the current and deposited on the floor. When the water fell a layer of fine mud was left behind, varying in depth from two inches to a foot. Before the lower dock can be used again, this slimy deposit will have to be raked up and carted away after which the floor must be washed off clean. A number of men were employed yesterday in performing this necessary labor. It is a huge job, and several days will be required to complete the work.

OREGONIANS RED CROSS.—Oneonta Encampment No 8, I. C. R. C., located at the Dalles was established on the 3d inst., by G. A. Mesimer, R. C. C., with a charter list of nineteen members. The following named were elected and duly installed.—Crandall, Com; Clara Humason, Sen. Com., C M. Duvall, C. of H.; M P W..., F. S., Mrs Humason, Treas. C. Mc... R Sec; C A Mesimer, P C.; Anna ..., I G., R. R Royal, O G., Emma Al..., C. R. C., Sarah Worsley M. of C., ... McCloud, G. Mrs. Wingate, L. T Woodward, S., Ella Cowan, I. The following were elected to the Grand Encampment were also installed: M P Watson, R. R. Royal and C ... Mesimer.

TRIAL.—The case of State vs Wm Palmer ..., charged with assaulting a man named Dan ..., during a row on Monday evening, came up for trial in police court yesterday A. M. The court found defendant guilty of disorderly conduct, by fighting, and sentenced him to pay a fine of $10. Palmer, failing to come down with the "specie," was committed to jail for five days. Dan Cullens was ... in court on a similar charge and ..., which he liquidated and was discharged.

GRANGE.—At a meeting of Oswego ... No 175, December 8, 1875 the following ... were elected to serve the ensuing ...: A. R. Shipley, M. C W Bryant O ... Shipley, Lec. W. Carman C. Jos ... S. S M Davidson, A. S. S A ... R. S. Mary Carman, T., Mrs C W ..., Mrs. L. E. Tabor, P. Mrs F ... Miss Carman, D. A. S. Franklin ... K.

LOS ANGELES.—Mr Weidler received yesterday from below to the effect that the barque *Los Angeles* was five days overdue at Tacoma, and asking him to join the O. S. S Co's steamers keep a sharp look for the missing vessel. The *California* is the only available steamer which the O S S Co now have to render any assistance as the *Oriflamme* is on the way to San Francisco and the *Geo. Elder* is Coast-bound and the *Gussie Pet* ... at Hapgood's fishery.

WEATHER SIGNAL.—From the records of the U. S. Signal Station of Observation, Portland, Oregon, December 8 1875

	7 A M	2 P M	9 P M
Thermometer	55°	62°	56°

Weather	Cloudy	Cloudy	Thr'tng
Rain			0.20

THOS. HERRMANN.—Manager Corbyn has telegraphed for Herrmann to leave San Francisco by the Pacific Mail line, via Victoria which sails on the 10th and will bring the great prestidigitateur here in time to open at Ankeny's new theater on the 17th. The announcement of the sailing of the Oregon steamer was received, called Mr Corbyn to this course.

WRECKED.—In tow of the tug *Geo Canby* the bark *Sea Waif* arrived here during Tuesday night from San Francisco. She brought a full assorted cargo of merchandise. The *Sea Waif* sailed from San Francisco a week ago last Monday, and reached the bar in four days. The ship *British Statesman*—one of the grain fleet—will probably arrive here to-day.

SURPRISE PARTY.—The residence of Mr Wells was visited last Tuesday night by a class of the Hall street Sunday school who came well provided with refreshments to tender a surprise party to their esteemed teacher Mrs Wells. But few more agreeable parties have occurred during the month than this.

DEEDS AND MORTGAGES.—All deeds and mortgages filed in the county clerk's office prior to the 7th inst., can be had by calling on Mr Shipley, after they have been recorded. Persons having those instruments on file should note the fact.

OFF THE TRACK.—While coming in from St Jo a few days since the west-side train ran off the track as a curve at the big cut was being passed. The cars were moving slowly at the time, and fortunately no damage resulted. Some little time was required to get the ditched cars back on the track, but no greater inconvenience was experienced.

STRANGE FRIENDSHIP.—A tame deer and a large dog were seen yesterday fondly caressing each other in the vacant lot at the corner of First and B streets. Association, it seems has entirely destroyed the instinctive antagonism which under ordinary circumstances exists between these animals and affection taken the place of natural aversion.

POUND PARTY.—The young ladies of the Unitarian chapel promise something new and novel to-morrow evening at the chapel, as the name applied to the entertainment would indicate. Of course the audience room will be crowded on the occasion.

CAME DOWN.—Yesterday morning the steamer *E N Cooke* came down the river from Oregon City. She brought about fifty tons of freight.

SHORT NOTES.

The river is still falling.

Holiday goods are appearing in shop windows.

The planking of North Front street progresses quite slowly.

The county court's attention was engrossed yesterday in auditing a number of claims.

The public will remember the novel and attractive entertainment which will be given tomorrow evening at the First Congregational church.

The remains of the late P. L. Lennanwobber who was drowned last Saturday at Astoria were conveyed to Clatsop on Tuesday for interment.

After a detention of several days at Astoria the steamer *Oriflamme* crossed the bar Tuesday afternoon, and is now plowing her way to San Francisco.

The steamer *Ajax* is again left in the lurch. When the *Dixie Thompson* left Astoria yesterday morning she was lying at anchor opposite Fort Stevens.

It was found necessary to remove a number of large, handsome locust trees which stood on the west side of First street between C and D streets, owing to the widening of the first named thoroughfare.

The contract has been let and workmen are busy repairing the washout on Front street at Harrison by putting a flume about 100 feet long across Front street and bridging the cut by a roadway 18 feet wide.

A lot of new and elegant furniture manufactured by Messrs DeLin Edwards & Co., was put in the custom house yesterday, corner of B and Front streets, which contributes in no small degree to the convenience and appearance of the building.

CAPITAL NOTES.

The Willamette is receding very fast at this point.

Another wedding on the tapis. Our lady readers will be notified in due time who the parties are.

Salem, unlike sister cities and towns has no Christmas ball in prospect. What ails our Salem Social Club?

Messrs Shaw & Williams, real estate agents, have fitted up a neat little office on the east side of Commercial street.

The young ladies of the Congregational Church will give one of their pleasant social reunions at the residence of W W Martin, Esq., on Friday evening next. We anticipate a pleasant time.

Among the well known personages in the city we notice our old time friend Wm E Stubbs, formerly of your city, but more recently of San Francisco. Also, Phil Stanton, a Salem boy of days gone by.

Hon W R Dunbar G W C T., visited Western Star Lodge No 10, I O G. T. at Albany last evening. He passed through here to-day, en route to Portland, to visit the Grand Encampment I O R G.

No Eastern or Californin mail has been received at the Salem office since the arrival of the last steamer and unless the *Ajax* and *Oriflamme* start overland very shortly there is little prospect of receiving one very soon.

The office of the *Willamette Farmer*, in this city is graced with the presence of a female compositor, in the person of Hattie B Clarke, daughter of the editor in-chief, who sets type with more grace and with nearly as much rapidity as do her competitors of the sterner sex.

There appears to be more or less wrangling among the powers that be at the Willamette University. Prof T M Gatch has, we understand, accepted the presidency of the State University and T H Crawford has sent in his resignation which was accepted. The latter gentleman will open a class in vocal music and book keeping, at an early day. The medical faculty, as well, are not on the best of terms, a late reconstruction having caused hostilities. It is to be hoped all bickerings will cease at once. WIDE AWAKE.

THE COURTS.

U. S. CIRCUIT COURT—DEADY J.

WEDNESDAY Dec 8 1875

Mary McGuire vs Marcus Neff—on order of Mr Killen decree dismissing the bill without prejudice with cost.

W T Wythe vs City of Salem—argument on motion to strike out part of answer.

U S DISTRICT COURT—DEADY J.

U S vs Wm Thompson—time to plead extended until to-morrow morning.

U S vs Frederick Seaver—argument and charge of court jury returned a verdict of not guilty; order discharging defendant and exonerating his bail.

U S vs Ah Gee—jury empannelled and after statement of counsel, cause continued until to-morrow.

Adjourned until to-morrow, 10 A M.

COUNTY COURT—WOODWARD J.—HANSON AND HOLMAN, COMMISSIONERS.

Application of A Crisfield, assignee for reinstatement of taxes, application denied.

In the matter of the petition for the location of a county road leading from the river road southerly through the Cornelius pass to Washington county line—bonds fixed at $100 which were duly filed and approved and P Holbrook H S Stephenson and N P Jones appointed viewers, and C W Barrage surveyor of said road to meet at the house of David Brooks on Tuesday, Dec 21st, 1875.

CARD OF THANKS.

The ladies of the 'Relief Society' desire to thank most cordially, the following named gentleman for the many kind favors shown them, and the assistance rendered during the entertainment given for the benefit of the 'Home': To the President Dr. Chapman and members of the Progress Club for the use of their elegant rooms. To Messrs Blum Rosenbaum, DuBois Dexter, and Goodwin for valuable services rendered, thereby greatly adding to the pleasures of the evening. For kindness and interest shown by Mr Allsky and Mr Jackson for the loan of dishes for the table. The public will as early as possible be made acquainted with the financial success of the entertainment.

FANNY AINSWORTH
Secretary L R S

BUSINESS NOTICES.

Note B L Stone's ad. He has an immense stock. Desire to call and inspect it.

Kilbourn has a special catalogue sale of books on Saturday at his auction rooms.

A Moller & Co have just received an invoice of the celebrated St Louis lager beer from the house of Anheuser & Co. Moller & Co are the sole agents for this beer. Orders promptly filled.

Before buying a suit of clothing, an overcoat or furnishing, go & call and examine the stock displayed at Fishel & Roberts' store. They can supply you, on short notice, with a ready made suit or take your measure.

Buy your boy a nobby suit for a holiday present. He will consider it a rare treat to be clothed in something new for the holiday season. If he needs it so, why not buy the suit now at Buck & Waldman's.

The justly celebrated deaf and dumb magician Prof Williams, has just arrived from the East and will give performances at Woods Museum commencing this evening. This young artist being deaf and dumb will add much interest to the performance. No extra charge for admittance.

GRAND ENCAMPMENT, C. R. C.

THIRD SESSION.

PORTLAND, Dec 8 1875

The Grand Encampment met pursuant to adjournment. Grand Commander presiding. Officers of yesterday present, with a considerable increase in the number of delegates.

After the reading of the journal, the committee on order of business reported in favor of holding sessions from 9 to 12 M., 2 to 5 P M and from 7 30 P M to adjournment. Report adopted.

The committee on credentials reported the following delegates as entitled to seats in the Grand Encampment:

Excelsior No 2—J D McGowan N Huntington N H Huntington, Mary Smith.

Lacreole No 10—Ed Casey A R Lyle Hubbig Shruve and Joanna Lyle.

Oneonta No 6—W P Watson R R Royal C A Messimer.

Adopted.

The Grand Secretary submitted his report which was referred to committee on distribution.

The G Commander then proceeded to fill the vacancies on the various standing committees, as follows:

Good of the Order—Comps J B Houston Hattie Johnson and W H Roberts.

Finance—Comps Munson, Casey and Wells.

Constitution and By laws—Comps J M Bacon M M Lucas and R H Hewitt.

Correspondence—Comps, Houston, Roberts and Lyle.

Resolutions relating to the life benefit system were then adopted.

The committee on distribution then reported, and the report having been adopted the respective committees proceeded to the various duties assigned them.

On motion the vote taken yesterday fixing the hour of 2 o'clock to day for the election of Grand officers was reconsidered after which the Encampment took a recess until 2 P M.

Afternoon Session.

Encampment met at the usual hour.

The following amendment to Article 12 Sec 1 of subordinate constitution was adopted striking out all after the word *provided*.

Resolutions were then adopted to the effect that 4th degree members of such Encampments as are unable to keep up their organization may retain membership under the jurisdiction of this Grand Encampment by paying to the Grand Encampment the sum of $6 per year. The resolutions also describe how such object can be effected.

The Grand Lucampment then proceeded to the election of Grand officers with the following result: A F Johnson (re elected) G C, J M Bacon G Com C A Whitney G J C W H Roberts, G S, J H Munson G T J F Huston G C of H, M A Hurley G M of C; Enoch Tanner, G C, Ed Casey, G G M M Lucas, G S.

After the election of officers a recess was declared until 9 o'clock to morrow.

During the afternoon session Companion W R Dunbar, G W C T. of Oregon, visited the Grand Encampment, and was heartily welcomed by the members present.

The best collar ever made is the Kimwood. It fits better and looks better than any other.

WHITE RUBBER STAMP warranted to do better work and last longer than the red rubber stamp. Call at Hudson's, 47 First street, and see for yourselves.

KOHN and who don't know Joe Kohn the pioneer clothier is opening every week something new for the inspection of his customers. His stock will compare with any and as to prices—well everybody knows that he will do the handsome thing with those who call on him. You will find him ably assisted by clerks prepared to accommodate with anything in his line. Recollect the house, First and Morrison streets. Look at the new style overcoats, just opened.

The steamer *Ajax* brought another large invoice of goods for HECK & WALDMAN who are determined to keep their customers supplied with the very latest styles as introduced in the San Francisco market. It is really astonishing to see the immense stock carried by this house when we consider the fact that these are dull times, and people are naturally disposed to 'hold on' to coin. But the firm have made their purchases in an advantageous and can offer their customers rare bargains. Call and satisfy yourself and recollect the place Front and Washington streets.

PIANOS AND ORGANS TUNED AND REPAIRED.

Success in business has induced Prof A L Frank to abandon teaching altogether. He will make regular trips through all parts of Oregon and Washington Territory. Patrons can be sure of first class work as he comes highly recommended by Gray's Music Store where he has a regular engagement. Also by the celebrated Pianist, Frank Ulder. Orders from all parts of the country may be left at Gray's Music Store, and will receive prompt attention.

GEO. H CHANCE. J. WELCH

CHANCE & WELCH,
Dentists,
Office—FIRST STREET,
(Odd Fellows' Temple.)

The Evil Fruits of Weak Digestion.

There is no pathological fact more clearly ascertained than that the most formidable phases of nervous disease are directly traceable to imperfect digestion. Insomnia with its train of direful consequences proceeds more frequently from weakness of the stomach than from any other cause. Mere sedatives are powerless to cure nervousness and soon cease to palliate its symptoms. The true way to strengthen the nervous system is to invigorate the digestive and assimilative organs upon whose unobstructed action its equilibrium is absolutely dependent. The daily use of Hostetter's Stomach Bitters will do more to brace and soothe the weakened and irritated nerves and induce sound refreshing sleep—nature's great catholicon than all the so called nervines to be found in the pharmacopœia or out of it. A wine glassful of the Bitters should be taken before each meal.

THE GREAT PLAGUE OF HUMANITY is Scrofula which in all its multiplied forms whether in that of King's Evil, Enlargement of the Glands or Bones, Goitre, White Swellings, Chronic Rheumatism, Cancer, Diseases of the Skin or Spine, or of Pulmonary Consumption emanates from one and the same source which is a poisonous principle in the human system. Overcome this inherent depravity of the system for it is the cause upon which the disease depends for nourishment, must of necessity follow, no matter under what form the disease manifests itself. It is because Jayne's Alterative is possessed of this peculiar efficacy that it is so generally successful in removing so many malignant diseases. It destroys the virus or principle from which they originate, by entering into the circulation and being carried with the blood to the minutest fibres driving every particle of disease from the system. The best evidence of this may be found in the testimony of those who have tried it and whose certificates are given at length in Dr Jayne's Medical Almanac to be had gratis of all agents.

RETURNS TO BE MADE.

OFFICE OF THE COUNTY CLERK,
CORVALLIS, Dec. 4, 1875.

TO THE EDITOR OF THE OREGONIAN:

In your issue of the 1st inst. I find a communication from Mr. L. P. Venen, Corr Sec of the W. W. A., by which he seeks to impeach my veracity as a reporter in a very unjustifiable and unwarrantable manner in relation to the premiums distributed at our late Fair. I need only refer you to the accompanying copy of the *North-Western Farmer* for information as to my authority for publishing the statement which appeared in your paper of the 16th, and if any error has been committed I would very respectfully refer Mr. Venen to the editor of the *Farmer* for an explanation, which I trust may be of such a nature as to completely subserve the interests of honor and righteousness.

Yours truly, W H ROBERTS.

Take the little ones to Fabre & Barnes for a lunch to day.

We are very much prepossessed in favor of those new Wheeler & Wilson machines they do such a range of work and are so easily managed.

For Coughs, Colds and Throat Disorders use *Brown's Bronchial Troches*, having proved their efficacy by a test of many years.

Before your Lungs begin to Fester stop the cough that may otherwise destroy you with HALE'S HONEY OF HOREHOUND AND TAR.

Like a Toothache Drops cure in one minute.

The Daily Oregonian.

THURSDAY MORNING DEC 9 1875

PRESIDENT'S MESSAGE.

[Concluded from First Page.]

the only one I can think of is the restoration of the duty on tea and coffee. These duties would add probably $18,000,000 to the present amount received for imports, and would in no way increase the prices paid for these articles by the consumers. These articles are the products of countries collecting revenue from exports, and as we the last consumers decrease the duties we proportionally increase the consumption.

DUTIES ON ARTICLES USED IN MANUFACTURES.

With this addition to the revenue many duties now collected and which give but an insignificant return for collecting might be remitted to the direct advantage of consumers at home. I would mention those articles which enter into manufactures of all sorts. All duties paid upon such articles go directly to the cost of the articles when manufactured here and must be paid by consumers. The duties not only come from consumers at home, but act as a protection to foreign manufacturers of the same or competing articles in our own and distant markets.

PROTECTION AGAINST FRAUDULENT CLAIMS.

I suggest or mention another subject bearing upon the question of how to enable the Secretary of the Treasury to accumulate but unless it is to devise some better method of verifying claims against the government than at present exists. Of claims growing out of the late war, nothing is more certain than that a large per centage of the amounts passed and paid are partly or wholly fraudulent, or are far in excess of the real losses sustained. The large amount of losses proven on good testimony according to existing laws had by affidavits of fictitious or unscrupulous persons to have been sustained by small farms and plantations, are not only far beyond the possible yield of those farms for any one year, but as every one knows who has experience in tilling the soil, and who has visited the scenes of these spoliations, they are in many cases more than the personal estate would be worth, including their personal and real estate. The report of the Attorney General, which will be submitted to Congress at an early day will contain a detailed history of the awards made of claims pending of the class here reported.

REPORT OF SECRETARY OF WAR.

The report of the Secretary of War accompanying this message gives a detailed account of army operations for the year just passed, the expenses for maintenance, etc., with recommendations for legislation, to which I respectfully invite your attention. To some of these I add of the first importance, is the necessity of making an appropriation of $300,000 for the Subsistence Department available before the beginning of the next fiscal year. Without this provision troops at points distant from supply points must either go without food or the existing law must be violated. This is not attended with cost to the Treasury. Second. His recommendation for the enactment of a system of annuities for families of deceased officers by voluntary deductions from the monthly pay of officers. This again is not attended with burden upon the Treasury and would for the future relieve much distress, which every old army officer has witnessed in the past. In cases of officers dying suddenly or being killed leaving their families without even the means of reaching their friends, if fortunate enough and have friends to aid them. Third. The repeal of the law abolishing mileage and a return to the old system. Fourth. The trial with torpedoes under the corps of engineers and an appropriation for the same. Should war ever occur between the United States and any maritime power, torpedoes will be among if not the most effective, cheapest auxilliary for defense of harbors and also for aggressive operations that we can have. Hence it is advisable to learn by experiments their best construction and application as well as their effect. Fifth. Permanent organization of the signal service corps. This service has now become a necessity of peace as well as war, under advancement made by present able management. Sixth. Renewal of the appropriation for completing the official records of the war, etc.

THE CONDITION OF OUR NAVY.

At this time is a subject of satisfaction. It does not contain, it is true, any of the powerful iron-clads which make so much of the maritime strength of some other nations, but neither our continental situation nor our foreign policy require we should have a large number of ships of this character, while this situation and the nature of our ports continues to make those of other nations of but little danger to the United States under such circumstances. Our navy does contain however, a considerable number of ironclads of the monitor class, which, though not properly cruisers, are powerful and effective for harbor defense and for operations near our own shores. Of these all the single turreted, fifteen in number, have been substantially rebuilt, their wooden beams replaced with iron bulls strengthened, and their engines and machinery thoroughly replaced so that they are now in a most efficient condition, and ready for sea as soon as they can be manned and put in commission. The five double-turreted ironclads belonging to our navy, by far the most powerful of our ships for fighting purposes, are also in hand undergoing complete repairs, and could be ready for sea in periods varying from four to six months. With these completed according to the present design, and our two iron torpedo boats, now ready, our ironclad fleet will be, for the purposes of defense at home, equal to any force that can be readily brought against it. Our wooden navy, also, cruisers of various sizes to the number of about forty, including those now in commission, are in the Atlantic and could be ready for duty as fast as men could be enlisted. Of those not already in commission one-third are, in effect new ships, and although of the remainder considerable repairs to their boilers and machinery are necessary, they are or can readily be made effective. This constitutes a fleet of more than fifty war ships, of which fifteen are iron clads now on hand. On the Atlantic coast the navy has been brought to this condition by a judicious and practical application of what could be spared from the current appropriations of the last few years, and from that made to meet a possible emergency two years ago. It has been done quietly, without proclamation or display, and though it has necessarily straightened the department in its ordinary expenditure, and as far as iron clads are concerned has added nothing to the cruising force of the navy, the result is not less satisfactory because it is to be found a great increase of real rather than apparent force. The expenses incurred in the maintenance of a naval force in all its branches are necessarily large but such a force is essential to our population relations and character and affects seriously the weight of our principles and policy throughout the whole sphere of naval responsibilities. The estimates for the support of this branch of the service for the next year amount to a little less in the aggregate than those made for the current, but some additional appropriations are asked for objects not included in the ordinary maintenance of the navy but believed to be of pressing importance at this time. It would, in my opinion, be well at once to afford sufficient means for the immediate completion of the double turreted monitors now undergoing repairs which must otherwise advance slowly and only as money can be spared from current expenses. Supplemented by these our navy armed with these destructive weapons of modern warfare manned by our seamen and in charge of our instructed officers will present a force powerful enough for the home purposes of a responsible though peaceful nation.

THE REPORT OF THE POSTMASTER GENERAL

Herewith transmitted gives a full history of the workings of the department for the year just past. It will be observed that the deficiency to be supplied from the general treasury is increased over the amount refunded for the preceding year. In a country so vast in area as the United States with a large population, sparsely settled it must be expected that this important service will be more or less a burden upon the Treasury for many years but there is no branch of the public service which interests the whole people more than that of cheap and rapid transmission of the mails to every inhabited part of our territory. Next to the free schools is the post-office is the great educator of the people and it may well receive the support of the general government. The subsidy of $150,000 per annum given to vessels of the United States for carrying the mails between New York and Rio De Janeiro, having ceased on the 30th of September last we are without direct mail facilities with South America. This is greatly to be regretted and I do not hesitate to recommend the authorization of a renewal of that contract, and also that the service may be increased from monthly to semi monthly trips. The company having advantages to be gained by a direct line of American steamships to the South American States will far outweigh the expense of the service. By act of Congress approved March 3d, 1875, almost all matter whether properly mail matter or not, may be sent any distance through the mails in packages not exceeding four pounds in weight for the sum of 16 cents per pound. So far as the transmission of real mail matter goes this would seem entirely proper but I suggest the law be so amended as to exclude from the mails merchandise of all descriptions, a limit thus means of transportation to all articles enumerated and which may be classed as mail matter proper.

THE BLACK HILLS.

The discovery of gold in the Black Hills a portion of Sioux reservation has had the effect to induce a large emigration of miners to that point. Thus far the effort to protect the treaty rights of the Indians of that section has been successful but the next year will certainly witness a large increase of such emigration. The treaties for the relinquishment of the gold fields having failed it will be necessary for Congress to adopt some measures to relieve the embarrassment growing out of the causes named. The Secretary of the Interior suggests that the supplies now appropriated for the subsistence of that people, being no longer obligatory by the treaty of February 8 but simply a gratuity may be issued or withheld at his discretion.

INDIAN TERRITORY.

The conditions of the Indian Territory to which I have referred in several of my former annual messages remain practically unchanged. The Secretary of the Interior has taken measures to obtain a full report of the condition of that territory and will make it the subject of a special report at an early day. It may then be necessary to make a further recommendation in regard to legislation for the government of that territory.

THE PATENT OFFICE.

The steady growth and increase of the business of the Patent Office indicates in some measures the growth of the industrial prosperity of the country. The receipts of the office are in excess of its expenditures, and the office generally in a prosperous and satisfactory condition.

THE PUBLIC LANDS.

The report of the General Land Office shows that there were 2,459,601 acres less disposed of during this than last year. More than half of this decrease was in land disposed of under the homestead and timber cutting laws. The causes of the decrease are supposed to be found in grasshoppers and the drouths which prevailed so extensively in some of the frontier States and Territories in this time as to discourage and deter entries by actual settlers. The cash receipts were less by $69,032,223 than during the preceding year. The entire surveyed area of the public domain is 680,251,095 acres, of which 26,075,533 acres were surveyed during the past year leaving 654,747,612 acres still unsurveyed. The report of the commissioner presents many interesting suggestions in regard to the disposition of the public domain and the modification of existing laws the apparent importance of which should in our the careful consideration of Congress.

THE PENSION BUREAU.

The number of pensioners till continues to decrease, the highest number having been reached during the year ending June 30 1872. During last year 416 697 names were added to the rolls, and 12,777 were dropped showing a net decrease of 1 429. But while the number of pensioners decreased, the annual amount due on the pension rolls has increased $4 473,313. This is caused by the greatly increased average rate of pensions which by the liberal legislation of Congress has increased from $90 26 in 1872, to $103 91 in 1875, to each invalid pensioner, an increase on an average rate of one hundred per cent in the three years. During the year ending June 30, 1875, there was paid on account pensions including the expenses of disbursements $29,683,116 being $910,632 less than was paid the preceding year. This reduction in amount of expenditures was produced by a decrease in the amount of arrearages due on allowed claims and on pensions, the rate of which was increased by the legislation of the preceding session of Congress. At the close of the last fiscal year there were on the pension rolls 234,821 persons, of whom 210,263 were army pensioners, 105 475 being invalids and 14 885 widows and dependent relatives, 4,420 were navy pensioners of whom 2,636 were invalids and 1,784 widows and dependent relatives 21,038 were pensioners of the war of 1812 15,875 of whom were survivors and 5 163 were widows. It is estimated that $29,535 000 will be required for the payment of the pensions for the next fiscal year an amount $905,000 less than the estimate for the present year.

GEOLOGICAL EXPLORATIONS.

The geological explorations have been prosecuted with energy during the year, covering an area of about 40,000 square miles in the Territories of Colorado Utah and New Mexico developing the agricultural and mineral resources and furnishing interesting scientific and topographical details of that region.

THE INDIAN POLICY.

The method for the treatment of the Indians adopted at the beginning of my first term has been steadily pursued, and with satisfactory and encouraging results. It has been productive of evident improvement in the condition of that race, and will be continued with only such modifications as further experience may indicate to be necessary.

THE CENTENNIAL.

The board heretofore appointed to take charge of articles and matters pertaining to the war the treasury, the interior and the postoffice departments and the department of agriculture the Smithsonian Institution and the commissioners of food, and the fish commissioners to be contributed under the legislation of last session to the international exhibition to be held at Philadelphia during the Centennial year 1876 has been diligent in the discharge of the duties which have devolved upon it and the proportions so far with the means at command give assurance that the Government's contribution will be made one of the marked characteristics of the exhibition. The board has observed considerable economy in the matter of the erection of buildings for the exhibition the expense of which it is estimated will not exceed say $8 000. This amount has been withdrawn under the law from the appropriations of three of the departments which leaves six of these departments without sufficient funds to render their respective practical exhibits complete and satisfactory. The exhibition being an international one and the Government being a voluntary contributor it is my opinion that no construction should be of a character in quality and extent to surpass the dignity and utility of so distinguished a contributor. The advantages to the country of a creditable display in an international point of view is of first importance while indifferent or unreliable parsimony on the government would be humiliating to the patriotic feelings of our people. I therefore recommend the estimates of the board for the necessary additional appropriations to the favorable consideration of Congress. The powers of Europe with few exceptions and many of the South American States and even the more distant eastern powers have manifested their friendly sentiments toward the United States and the interest of the world in our progress by joining with us in the celebration of the Centennial of Lexington and I strongly urge that legislation be given to this exhibition by such legislation and appropriations as will insure its success. Its value in bringing to our shores innumerable works of art and skill the commingling of citizens of foreign countries and our own the interchange of ideas and manufactures will far exceed any outlay we may make prudently.

AGRICULTURAL EDUCATIONAL AND OTHER BUREAUS.

I transmit herewith the report of the Commissioner of Agriculture &c. &c. with the reports of the commissioners of the Bureau of Education and the Board of Health of the District of Columbia to all of which I call attention. The Bureau of Agriculture has in addition to the usual collection of useful knowledge in the agricultural interest in addition to the usual crop reports &c. made elaborate investigations of the diseases of the cotton plant and the ravages of the cotton worm.

The report of the Commissioner of Education, which accompanies the report of the Secretary of the Interior shows a gratifying progress in educational matters.

THE MORMON QUESTION.

In nearly every annual message I have had the honor of transmitting to Congress, I have called attention to the anomalous if not to say scandalous condition of affairs existing in the Territory of Utah and have asked for definite legislation to correct it. That polygamy should exist in a free enlightened and Christian country without the power to punish so flagrant a crime against decency and morality seems preposterous. True there is no law to sustain this unnatural vice but what is needed is a law to punish it as a crime, and at the same time to fix the status of the innocent children the offspring of this system, and of the possibly innocent plural wives but as an institution polygamy should be banished from the land.

IMPORTATION OF CHINESE WOMEN.

While this is being done I invite the attention of Congress to another, though perhaps no less an evil the importation of Chinese women but few of whom are brought to our shores to pursue honorable or useful occupations.

PUBLIC LANDS IN THE TERRITORIES.

Observations, while visiting the Territories of Wyoming Utah and Colorado during the past autumn convinced me that existing laws regulating the disposition of public lands timber &c and probably the mining laws themselves are very defective, and should be carefully amended and at an early day. A Territory where cultivation of the soil can only be followed by such irrigation as is practicable when the lands can only be used as pasturage, and this only where stock can reach water to quench thirst, cannot be governed by the same laws as to every acre of which is in an independent state by itself. Land must be held in large quantities to justify the expense of conducting water upon it to make it fruitful or to justify utilizing it as pasturage.

TIMBER AND MINING LANDS.

The timber in most of the territories is principally confined to the mountain regions which are held for entry in small quantities only and as mineral lands. The timber is the property of the United States in the disposal of which there is now no adequate law. The settler must become a consumer of this timber whether he lives upon the plains or engages in working the mines. Hence every man becomes either a trespasser himself or knowingly a patron of the trespasser. My opportunities for observation were not sufficient to justify me in recommending specific legislation on those subjects, but I do recommend that a joint committee of the two Houses of Congress, sufficiently large to be divided into sub committees be formed, authorized to visit all the mining States and territories during the coming summer, and that the committee shall report to Congress at its next session such laws or amendments to laws as it may deem necessary to insure the best interests of the government and the people of these Territories who are doing so much for their development. I am sure the citizens occupying the Territories described do not wish to be trespassers, nor will they be if the laws are provided for them to become owners of these actual necessities of their position.

LEADING QUESTIONS FOR CONSIDERATION.

As this will be the last annual message which I shall have the honor of transmitting to Congress before my successor is chosen I will repeat or recapitulate the questions which I deem of vital importance to be legislated up on and settled at this session.

First—That the States shall be required to afford the opportunity of a good common school education to every child within their limits.

Second—No sectarian tenets shall ever be taught in any school supported in whole or in part by the State nation, or by the proceeds of any tax levied upon any community. make education compulsory so far as to deprive all persons who cannot read and write from becoming voters after the year 1890 disfranchising none however, on grounds of illiteracy who may be voters at the time this amendment takes effect.

Third—Declare Church and State forever separate and distinct but each free within their proper spheres and that all church property shall bear its own proportion of taxation.

Fourth—Drive out licensed immorality, such as polygamy and the importation of women for illegitimate purposes.

To recur again to the Centennial it would seem as though now as we were about to begin the second century of our national existence would be a most fitting time for these reforms.

Fifth—Enact such laws as will insure a speedy return to a sound currency such as will command the respect of the world.

Believing that these views will commend themselves to a great majority of the right thinking and patriotic citizens of the United States I submit the rest to Congress.

(Signed) U. S. GRANT.

LAND FOR IMMIGRANTS.

Choice Farms for Sale.

4,000 ACRES, IN QUANTITIES TO SUIT PURCHASERS.

230 ACRES DUE SOUTH AND ADJOINING the Railroad Depot at Salem all under cultivation and suitable for grain or vegetables.

640 ACRES 700 miles east of Salem, on the railroad, with Mill creek running through it. This is the choicest farming land in Marion county with fine springs combining in part of the mill. Rector donation claim on which I raised the present year fifty bushels of wheat and three tons of timothy per acre. The first crop of corn ever raised on part of this land measured fifty bushels per acre, weighing 64 and ground obtained by Mr. Alfred Shanton of Salem.

2,000 ACRES of prairie and timber land in bend, will sell for farming purposes, bounded by the Willamette river for four miles, and about four miles on the east boat landings all along the river on the grain land—the balance of the land is of the finest quality and to be found in the Willamette valley to be purchased by a colony. Terms from $10 to $15 per acre. This land will all be immediately ready for cultivation and can be sold in larger or smaller parcels to suit purchasers. It can be subdivided to the best advantage, and I can offer any person or persons an early opportunity of securing to themselves some of the best part of the Willamette valley near the city of Salem and within reach of the best and advantages as well as most favorably located with respect to work is known. Advantages of as easy payments as can be obtained elsewhere. Any other information desired will be given on application to
